Action: It was moved by Member Ruh, and unanimously approved that the Board adopt Orders No. R8-2006-0033, R8-2006-0017, R8-2006-0009 and R8-2006-0036 with errata, and approve the exemptions from minimum lot size requirements requested by Randy and Debra Freeman, Pablo Martin, Nichalaus and Rhonda Gloudeman and Hillside Community Church.

14. **Amended Cleanup and Abatement Order No. R8-2005-0053 Issued to Kwikset Locks, Inc., Emhart Industries, Inc., Kwikset Corporation, Black & Decker Inc., and Black & Decker (U.S.), Inc.** – Consideration of a procedure submitted by the named dischargers.

This item was removed from the agenda because the named dischargers did not submit a proposal.

15. **Big Bear Lake Nutrient Total Maximum Daily Loads (TMDLs), Public Hearing, Resolution No. R8-2006-0023** – Information on this item is contained in a verbatim transcript.

Heather Boyd, Environmental Scientist, presented this item. Staff recommended amending Chapter 5 of the Basin Plan to incorporate a Nutrient TMDL for Dry Hydrological Conditions for Big Bear Lake shown in the Attachment to the Resolution and as amended by Errata Sheet No. 1 and as further amended by the deletion of Task 1.2 and its footnote.

Speakers on the item:

Tim Moore, Big Bear Lake Task Force  
Matt Yeager, San Bernardino Co. Flood  
Max Copenhagen, San Bernardino National Forest  
Brent Tregaskis, Big Bear Mountain Resorts

Action: It was moved by Member Neev, seconded by Member Ruh and unanimously approved that the Board adopt Resolution No. R9-2006-0023 with the errata as proposed.

16. **Administrative Civil Liability Complaint, SunCal Companies, Tract 31462, Beaumont, Riverside County, Order No. R8-2006-0018**

This item was settled and waived; therefore, no hearing was necessary.

17. **Triennial Basin Plan Review**

Dave Woelfel, Environmental Scientist, presented this item. He provided an overview of the Triennial Basin Plan process. A proposed draft priority list of issues to consider for this triennial review has been developed. The list will be posted on our website and one or two stakeholder meetings will be scheduled to invite public comments. A revised priority list will be presented at a subsequent public hearing for consideration of Board approval. This revised priority list will reflect input from stakeholders and available resources. Work on approved priority list items may lead to basin plan amendments.

18. **Status Report on Rialto-Colton-Fontana Perchlorate Investigation**

Robert Holub, Supervising Engineer, presented this item. He stated that Goodrich, Emhart and Pyro Spectaculars had been conducting fieldwork since the last Board meeting. Data was still coming in, so Board staff was not yet in a position to make any conclusive determinations on the findings. However, at the 160-acre site, Emhart's soil and soil gas work has shown that TCE was not detected in any of the shallow soil and soil gas samples that were taken, and perchlorate was not detected in most of the locations that were sampled. Pyro Spectaculars was in the process of installing the first of three wells that they will be installing at the site. Goodrich has drilled four of their five proposed off-site, downgradient borings where multiport wells will be installed to depths of about 750 feet. Mr. Holub stated that the cooperation and interaction by Goodrich, Emhart and Pyro Spectaculars and their consultants and drilling contractors in performing the fieldwork have been outstanding. Also, Emhart has been receptive to Board staff suggestions for additional

sampling locations, and has been performing more fieldwork than what was proposed in their work plan.

Speakers on this item:
